

## S100

Whereas laptops previously served as platforms for office applications only, they are now coming to replace gaming and multimedia PCs. In order to effectively shield these high-performance devices against overheating, Xilence offers the ultra-mobile S100 laptop cooler. The three quiet-running 6cm fans achieve impressive air throughput at low levels of noise. Its especially compact design means that it can be used in a wide variety of situations, and can be adjusted precisely to the heat points on the bottom of the laptop

### Features:

- Protects your netbook from overheating and thus extends the lifetime of the device
- 3x quiet-running 60mm fans provide optimal cooling
- Ergonomic design for more comfortable using
- Four foot brackets for maximize air flow and rubber feet increase cooling performance
- Powered by USB cable, light weight design, easy to carry
- Attractive aluminium design
- Green LED for power indication

### Technical Data:

Dimension:	303 x 84 x 26mm
Input Voltage:	5V
Number of fans:	3
Fan Size:	60 x 60 x 10mm
Bearing Type:	Sleeve Bearing
Fan Speed:	1500~3000RPM $\pm$ 10%
Max. Airflow:	33CFM
Sound level:	18,5~26 dB(A)
Net weight:	300g

### Logistical Data:

Item number:	COO-XLP.S100.B5
EAN Barcode:	4044953113147
